Experience

ML Intern

Jan 2026 - Apr 2026

Thick Code

Rajkot

- Delivered 8 end-to-end ML projects across regression, classification, and time-series domains, applying core techniques including EDA, feature engineering, and model evaluation to real-world datasets using Python, NumPy, pandas, and scikit-learn.
- Built predictive models with statistical validation including ADF stationarity tests and correlation analysis, and documented performance benchmarks to guide model selection across projects.

Full Stack Web Developer Intern

May 2025 - Jun 2025

Gleamoro

Bhavnagar

- Architected and shipped a Node.js REST API with authentication and user management for a 3-person team, reducing API response latency by **30%** through query optimization and connection pooling.
- Integrated React and Redux frontend with the authenticated API layer, diagnosing and resolving a race condition in concurrent requests that improved system reliability under load.

Projects

Football IQ AI | Python, FastAPI, LangChain, ChromaDB, Sentence Transformers, Groq API, Next.js

Jul 2026

- Built a full-stack Retrieval-Augmented Generation RAG application answering football queries grounded in a 31-document knowledge base, achieving **93% exact top-1 retrieval accuracy** and 100% keyword recall on a 15-question evaluation set using sentence-transformer embeddings with top-k similarity search.
- Engineered a structured, source-cited prompt with explicit low-relevance fallback to reduce LLM hallucination, using Llama 3.3 70B via Groq API as a single inference boundary for consistent latency.
- Shipped an 8-endpoint REST API supporting SSE streaming, multi-turn conversation via history condensation, and live document uploads, paired with a Next.js chat frontend.

Stock Market Forecasting Dashboard | Flask, TensorFlow, Keras, statsmodels, scikit-learn, SQLite

Jan 2026 - Apr 2026

- Led model development on a 4-person team benchmarking ARIMA, Prophet, and LSTM on 1,256 daily observations across multiple tickers; LSTM achieved **RMSE 2.89 and MAE 2.23**, outperforming ARIMA by 12% and Prophet by 30%.
- Built a preprocessing pipeline with ADF stationarity testing and seasonal decomposition, weighing LSTM's 12x longer training time of 145.6s versus ARIMA's 12.3s against accuracy gains to guide model selection tradeoffs.
- Implemented SQLite-backed multi-user authentication and data persistence for the Flask web application.

AI Medical Assistant - Medify | React Native, Flask, MongoDB, OpenCV, IBM Watson

Jun 2025

- Owned the OCR and backend ML pipeline for a cross-platform React Native app at CVMU Hackathon, achieving **90%+ accuracy** extracting medicine names, dosages, and handwritten instructions from medical images.
- Compiled a 200K+ medicine database enabling fast drug information search, side effects lookup, and alternative recommendations.
- Built medical report summarization with doctor-sharing, a medication tracker with automated reminders, and an IBM Watson chatbot for real-time patient assistance.

Skills

- Languages:** Python, SQL, JavaScript
- ML & Data:** Machine Learning, Deep Learning, Neural Networks, LSTM, RAG, LLMs, Data Analysis, Pandas, NumPy, Scikit-learn, TensorFlow, Keras, statsmodels, Matplotlib, Seaborn, Plotly, OpenCV
- GenAI & NLP:** Generative AI, LangChain, Vector Databases, Sentence Transformers, ChromaDB, NLP
- Backend & Web:** Flask, FastAPI, React, Next.js, Node.js, REST APIs, MongoDB, SQLite
- Cloud & Tools:** AWS, Git, GitHub, Postman, Jupyter

Achievements

- Top 25/500 Finalist**, CVMU Hackathon - built Medify, an AI medical assistant app
- Secretary, ISTE GCET Student Branch - organized technical events and managed member operations
- Winner, Best Business Idea Contest, CVM University
- Winner, AI Bootcamp, JunoHub

Education

G H Patel College of Engineering and Technology

B.Tech, Information Technology

May 2026

CGPA: 8.60/10

Extracurriculars

- AWS Academy Graduate, Cloud Developing, AWS Academy and Coursera
- Data Science Bootcamp 2022 - Attended and worked on multiple projects
- Branch Representative, ISA Club, 2023 to 2025 - Organized events and contributed to community outreach initiatives
- Member, Rotaract Club, 2022 to Jun 2026 - Coordinated events and supported local communities
